

SERIES 1352

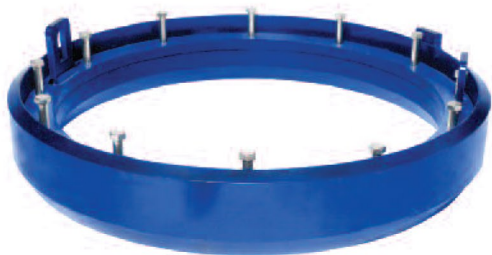

WELD-ON SURFACE EQUIPMENT

16", 20", 21¼", 26", 30"

The Washington Series 1352 Weld-on Surface Equipment allows the driller to customize a diverter per site-specific needs. The bowls are designed to weld directly to casing sizes from 16" to 30"+ and can utilize either our 1300 or 1400 Series Rotating Control Device. Our largest bowl will allow for the use of tools up to 30" OD. Casing runners are available for all bowl sizes and will seal from 5½" to 24" casing, depending on the bowl that is utilized.

Optional Casing Runner accessory is used when circulating cement into the well bore.

Casing Size*	Overall Height A	Body Bore B	Bearing Adapter OD C	Casing Rubber
16"	22"	15½"	17"	5½" - 10¾"
20"	16"	19¾"	21"	7" - 13¾"
21¼"	16"	21¼"	22¼"	7" - 13¾"
26"	18"	26¼"	27¼"	7" - 20"
30"	18"	30¼"	31¼"	7" - 24"

*Custom sizes available upon request.
